

This being is identified as one transformed by the conscious realization of divine purpose and intention for every being to freely co-create from Being In Love.

As we awaken to New Earth Formation, we as individuals are called to be intentionally conscious as both witness and participant in this process of co-creation.

New earth is a place of great truth, surrender, joy, and beauty. To live with this new earth we must possess and exercise the qualities and capacities of Communion, Compassion, Co-operation, and Co-Creation.

VEve, in a purposeful and direct manner, provides a system of guidance for self examination, sacred reflection and tools to identify and move through patterns inconsistent with self's highest intention and life purpose.

It is my dream that each of us, in our process of understanding, is able to genuinely connect with the authenticity of our most sacred self.

May we as ONE be blessed with grace and mercy on our journey as we consciously travel the pathway of wholeness. And in our self discovery may all nature of our families, communities, world and universe emanate the love that we share.

Section Descriptions

VEve moves through the processes of transformation in a series of 32 awareness's. In this work VEve moves through and examines the first six stages of awareness as follows:

Part 1 – Sacred Reflection of the Mind of Love

Chapter 1 - Essential Being

Chapter 2 - Inner Light

Chapter 3 - Inner Chaos

Part 2 – Sacred Reflection of Knowing to Love

Chapter 4-Matter of Void

Chapter 5-Halls of Healing

Chapter 6- Wave of Matter

Each chapter is divided into 6 sections of contemplations for the purpose of personal unfolding through inward and outward reflection of soul/ego relationship and pattern. Each section is a running thread which connects simple truth's found within self as divine universal matrix, Oneness.

Below are instructions on how to use VEve as a tool for the daily practice and discipline of contemplation. Contemplation has been used since the beginning of time as an effective tool for the individual on the sacred and personal journey. Each individual contemplation can be used individually or together as a long story. This design is set up to address the micro and macro view of the whole being. The order has an evolutionary consistency which provides subtle clues for self/Self relationship, highest intention and potential for conscious growth.
